Storage Bag

Features:

Flycam Flowline Starter with Edge V1 Arm

Flowline Starter with Edge Setup

NOTE: It is recommended to attach the minimum required weight (3kg / 6.6lb) to pull down the balancing rope and ensure proper operation of your Flycam Flowline system.

Support Bar Adjustment

- Loosen the knob of the Flowline Edge.

- After loosening the knob, remove it and pull the rod of the Flowline Edge to open it.

Feature: The foldable design of the Flowline Edge makes it easier to store.

Mounting the Edge V1 Arm on the Flycam Flowline Starter Vest

- Properly attach the Edge to the Flowline vest.

- After opening the rod, insert the knob and properly tighten it, as shown in the image.

Feature: The tension adjustment knob matches your rig's weight, while the adaptable sliding knob adjusts the support rope to your unique filming needs.

- The Flowline Edge is fully assembled with the Stabilization Arm. The versatile belt system molds to fit all body types.

Support Bar Height Adjustment

- Loosen all four Adjustment Knobs provided on the back of the Support Jacket.
- Then adjust the height (upward/downward) of the support bar.

- Once the support bar is at the desired height, re-tighten all four Adjustment Knobs to secure it.

Height Adjustable Support Bar

Height Adjustable Knobs

- Put on the support jacket and tighten the buckles provided at the waist and chest.

- Then, adjust the jacket as per your convenience.

Camera Mounting

- Attach the Camera **(Not Included)** to the hook and tighten using the provided knob to ensure a slip-free connection.

- Your setup is ready to use.

Adjust Camera Setup Position

- Loosen the knob at the support bar to adjust the camera setup position.

Adjust Camera Setup Position

Spring Tension Adjustment

- Loosen the knob at the Edge V1 arm to adjust the spring tension.

Feature: The tension adjustment knob allows you to fine-tune the arm's spring tension to your rig's weight, while the adaptable sliding knob adjusts the support rope to meet your unique needs.

Low/ High Angle Shots

Capture Every Angle (180° Rotation)
